

# Johnson Permeable Paver Driveway

**Project:** Approximately 600 square feet of permeable pavers were installed in a residential driveway. The pavers will allow water to pass through and infiltrate into the soil.

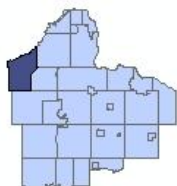

**Costs:** Estimated costs for the driveway reconstruction project was \$12,000.

**Funding:** Dakota County SWCD technical assistance and Conservation Cost Share Funding of \$2,500.

**Location:**

Burnsville, Minnesota

**Practice:**  
Permeable pavers

**Benefits:**  
Reduces runoff  
Promotes infiltration  
Reduces downstream erosion by reducing runoff volumes and peak flows

**Partners:**  
Met Council  
City of Burnsville

**Watershed:**  
Minnesota River

**Construction:**  
April  
**2004**
